Professional Summary

Recent bachelor's degree graduate in Informatics from Universitas Nasional with a GPA of 3.73/4.00 and a strong foundation in Web Development, Artificial Intelligence, and Machine Learning. Completed a 6-month internship at the Ministry of Human Rights (KemenHAM), contributing to the development of web-based systems using Django, React.js, and JavaScript. In addition, developed independent full-stack web development projects to strengthen practical skills in building web applications, including frontend and backend development, RESTful APIs, database management, authentication, and system integration. Proficient in Python, JavaScript, HTML, CSS, React.js, MySQL, and familiar with technologies used in modern web application development. Possess strong analytical and problem-solving skills, adaptability, and a passion for continuous learning. Certified in Software Development and as a BNSP Junior Web Developer, with strong communication and teamwork skills that enable me to contribute effectively in a professional environment.

Education

UNIVERSITAS NASIONAL **2022 - 2026**

Bachelor of Computer Science in Informatics | GPA: 3.73/4.0

September 2022 – February 2026

Experience

Kementerian Hak Asasi Manusia – Intern **March 2024 – Aug 2024**

- Developed a web-based news clustering system using Python, Django, and unsupervised machine learning for 1,262 news articles from the Ministry of Human Rights (KemenHAM).
- Applied Indonesian NLP, text preprocessing, TF-IDF vectorization, and K-means clustering to identify thematic patterns in unstructured news data.
- Evaluated clustering performance using the Elbow Method, Silhouette Analysis, Adjusted Rand Index (ARI), and Normalized Mutual Information (NMI).
- Built an interactive analytical dashboard using Pandas, Scikit-learn, and Matplotlib, featuring PCA, similarity matrices, cluster distributions, timelines, word clouds, scatter plots, and heatmaps.

Skills

- **Hard Skills:** Python, MySQL, JavaScript, Machine Learning, Natural Language Processing (NLP), Web Development, HTML+CSS, UI/UX Basics, Tableau, Microsoft Excel.

- **Soft Skills:** Analytical Thinking, Critical Thinking, Problem Solving, Communication, Presentation, Teamwork, Adaptability, Continuous Learning.

Sertifikat

- Certificate Badan Nasional Sertifikasi Profesi - Junior Web Developer dari Lembaga Sertifikasi Profesi Informatika
- Certiport Certificate - Software Development
- TOEFL English Certificate
- Certificate of Work Experience / Internship at the Ministry of Human Rights (HAM)
